# Katch Kan®

## Surface Junk Basket™

### Problem

- Lost tools down annulus leading to un-scheduled tripping to remove objects
- Economic loss due to decreased time-efficiency

### Solution

In combination with the Window Stripper™ and Upper Katch Kan™, the Surface Junk Basket™ keeps foreign objects (like lost tools) from going down the annulus.

### Value

- Slots allow fluids (not foreign objects) back into the flow nipple for re-circulation
- Eliminates costly fishing trips
- Adapter flange seal insures a snug fit
- Built in wear ring to prevent stripper from being cut while drilling
