

Product Info Sheet

Sea Can of Success

Problem

Difficulty obtaining and maintaining spill containment equipment in remote areas.

Solution

A complete customizable package for your drilling needs. This system allows for easy access to our closed-loop system. This system will save time with resources accessible on-site.

Value

- Accessible equipment in a remote area.
- An enclosed super polymer casing protecting equipment from harsh environments at all times.
- Significant time and cost savings due to resources availability on site.
- Fork lift/loader slots for easy transport
- Customizable kit.
